"The Press" lately showed that beet sugar had more than doubled its production in a single year under the bounty system. But other kinds of sugar also increased under the bounty so that our total production, as indicated by the bounty payments, rose to

481,070,322	
pounds in 1893 from	
378,115,917	
pounds in 1892.

ROOM FOR IMPROVEMENT.

St. Louis Globe-Democrat.—Fewer grangers and silver boodlers in Congress now and more business men would be a great benefit to the country.

✢

OUR CURRENCY BARGAIN COUNTER.

Washington Star.—There is a growing sentiment to the effect that an arrangement by which a man drops a piece of silver into the Treasury and takes out gold is not likely to prove a profitable or even a self-sustaining enterprise. And this, too, with the very slight difficulty that is experienced in getting customers.

✢

WHERE BOOTH SLEEPS.

New York Press.—Mount Auburn, the cemetery where Edwin Booth was buried, is celebrated for its beauty. It is in Old Cambridge, about one mile from Harvard College and half that distance from the residence of the late poet, Longfellow. Edwin Booth's brother Junius, Charles Sumner, the late Vice-President, Henry Wilson, James Russell Lowell and many other famous dead sleep there.

✢

IT COSTS TO HUNT BIG GAME.

Boston Globe.—"Heretics" are pretty expensive luxuries, according to the estimates of the cost of the Briggs trial. The mere board bills of the Commissioners to the recent Presbyterian General Assembly while considering the case amounted to over $13,000. Rev. Dr. Bartlett, Chairman of the Local Committee of Arrangements at Washington, figures that the case will cost the General Assembly $50,000, while it is said that Colonel McCook spent $20,000 out of his own pocket besides. However, such prices cannot stand, for very few will be found making the heroic defense in the future that Dr. Briggs has put on record. In fact, according to present indications, the General Assembly will soon be able to get all the heretics it wants at mere nominal figures.

✢

"ALL THINGS COME TO HIM WHO WAITS."

Frankfort Capital.—It may not be forgotten by those who keep in touch with legislative events, that some moons since, Mr. Charlton, one of the Representatives in the General Assembly from Louisville, introduced and secured the adoption of a resolution calling Mr. Halbert, a brother member from the county of Lewis, to Frankfort, to personally respond to inquiries touching some objectionable remarks alleged to have been made by him concerning the General Assembly. Time flew by, and Charlton becomes involved in alleged charges against his brother members. Whereupon, Brer. Halbert copies the exact language of Brer. Charlton's resolution, with only the changes of name from Halbert to Charlton, and yesterday the House adopted the amended document. The resolution will be found in our regular legislative report. The concensus of opinion in the premises, outside the legislative House—as expressed by one of the unrighteous—is that Brer. Halbert, at present, holds the Age—whatever that may mean.

✢

WORLD'S FAIR SUNDAYS.

New Orleans Times-Democrat.—The country will rejoice over it, both because of the opportunities it offers working-men to profit by this great display and because it is a triumph over a narrow Puritanism which has no place in a country as broad, liberal and enlightened as the United States.

Chicago Herald.—It penetrates to the foundation on which the Federal Government rests. It vindicates and establishes the fundamental state home rule. It contains the saving essence, the vital inspiration of the Constitution of the United States, which reserves to the states and to the people all the powers not delegated to Congress.

There is still another subject for congratulation in this decision. It is a new declaration of independence for the rights of conscience and for religious liberty. It is a decree of divorce separating their vital law and the police from the obligations which each man's mind and conscience impose upon himself in his form of worship, in his Sabbath day duties and in his own interpretations of Gospel legislations.

Chicago Tribune.—The avowed object of the Directors in fighting for the opening of the Fair on the first day of the week was that the workingmen might visit it on their rest day. The Directors have carried their point. The next step should be to put it in the power of all the workingmen, whether poorly or well paid, to reap the fruits of the victory won in their name by reducing the price of admission on certain Sundays one-half.

A LARGE number of "Green Goods" letters were received from New York by various citizens yesterday. People who read newspapers ought not to be taken in by the scoundrels. The Postoffice Department is after them with a sharp stick, and if they are caught they will not send out any more circulars for a few years, anyway.

THE Examining Court discharged Mencer, Thornberry and Gilbert at Madisonville, charged with the murder of Rev. Berry. And That is Why the Legislature Will Adjourn on July 3d.

At last!
Thank the Lord!
The Senate has adopted the House resolution providing for a sine die adjournment July 3d, and laid on the table a motion to reconsider.

Kept the Ticket.

Seventeen years ago, says *The Cincinnati Post*, John Robinson's Circus was at Louisa, on the Big Sandy river.

Peter Scegg, then a man of middle age, bought two tickets, expecting to take his lady love to the show. On the eventful morning a quarrel came up, and Peter in consequence saw the elephant alone.

The quarrel was later made up and the lovers married. Julius L. Peter kept the ticket, but the show never came back.

A year ago Mrs. Scegg died and since Peter has lived alone. Saturday the circus went to Catlettsburg and Scegg took advantage of a long-delayed opportunity to use that pasteboard.

POUNDED HIS PROBOSCIS.

Hon. Harlan P. Whitaker Hammers an Attorney at Cincinnati.

Hon. Harlan P. Whitaker, the member of the Legislature from Kenton county and a brother of Hon. E. Whitaker of this city, demonstrated to Julius L. Anderson, a leading attorney of Ironton, that a Kentuckian would fight, and do it well when crowded or forced.

Mr. Whitaker was taking depositions in Cincinnati in the celebrated Thomas W. Means will case wherein $150,000 are involved.

In addressing a witness he jocularly made a remark that got the opposing attorney hot in the collar.

Anderson, advancing to Whitaker, shook his finger in close proximity to the Legislator's facial protuberance.

Then the Legislator wrapped his left about Anderson's neck and drove his right into his nose and hammered away like an industrious blacksmith swinging a sledge until they were separated.

HENRY HALL will be hanged in Pike county on August 11th for the murder of his brother over a game of cards.

Read it in His Paper.

People who never read the advertisements in their newspapers miss more than they presume. Jonathan Kenison of Bolan, Worth county, Ia., who had been troubled with rheumatism in his back, arms and shoulders, read an item in his paper about how a prominent German citizen of Ft. Madison had been cured. He procured the same medicine, and to use his own words, "It cured me right up." He also says: "A neighbor and his wife were both sick in bed with rheumatism. Their boy was over to my house and said they were so bad that he had to do the cooking. I told him of Chamberlain's Pain Balm and how it had cured me. He got a bottle and it cured them up in a week. I have great faith in Pain Balm and believe it will cure the worst cases of rheumatism. Fifty-cent bottles for sale by Power & Reynolds, druggists.

COOKING BY ELECTRICITY.

The Artist Attaches the Wire and the Current Does the Rest.

"Beefsteak or chops?" inquires Helen Louise Johnson of Philadelphia.

"Beefsteak," everybody says.

"Steak, Aleck!" says Mrs. Johnson to the black boy.

A knob is turned in a curious apparatus, which stands on a linen-covered table. In two minutes the broiler is hot. In four minutes more by the watch the steak is done. This broiler is a pan-shaped piece of iron standing on four short legs. Beneath is the heating plate, which is simply enamel, with a network of small wire imbedded. By a switch the current of electricity is turned into the imbedded wire. It encounters resistance. Heat is generated.

While Miss Johnson cooked the steak a ham was roasting in the oven. Two incandescent lights burned in the oven. A thermometer was hung near one of them. Through a glass door the whole process could be seen, and the degree of heat could be read. By a turn of the knobs this way and that the degree of heat could be increased or lessened. It was also possible to change the heat above, below or at the sides. Aleck watched the ham and the thermometer. He twisted this switch and then that, baking the ham just as he wanted it, without one time opening the door.

But most interesting of all the electric cooking apparatus is the hot cake griddle. There are three disks with the heater under each one.

"I can heat 'em in one minute," said Aleck, "and turn the prettiest flapjacks you ever saw, all brown, no white edges."

Attaching a little green wire to the back of the electric flat-iron the wash lady can iron on and on, with never a stop to change. The heat is kept up as long as the wire is connected.

"It's as cheap as gas," said Miss Johnson. "I know families who do all their cooking at $3 a month for electricity. Every bit of cooking on the newest big lake steamer is done by electricity. The Minnesota Club of St. Paul uses only electricity in its kitchen. It takes fifteen minutes to each pound of weight to cook a turkey with coal or gas. I can do it in ten minutes to the pound with the electric oven. Take my word for it, electricity is going to be the greatest friend the housekeeper has yet found.

Three minutes by one switch brings water to the boiling point for eggs. The button for the coffee-pot does its work in six minutes. There are radiators to throw off heat into the room, and a man can turn a switch at the head of his bed and have the cook stove hot before he has finished dressing.

THE LEDGER is a bright, newsy paper, and *The Tribune* is lucky it the report be true. It is said that *The Tribune* is combining thus with the leading local paper all up and down the river. It remains to be seen how the regular five cent dailies will meet this departure for business.

The Business Way!

The business way to advertise is to take space by the year, take pains with your advertisements in making them attractive, and change them at least as often as once a month.

You may think there are seasons when you don't need to advertise.

We have never seen that time.

Use the dull seasons for looking over your stock and running off that which is becoming out of style or unfashionable, and giving bargains.

If you have space by the year, it costs you no more, and you can make it profitable by converting unsalable goods into money, and reinvesting the money in those things which are salable.

THE pearl button industry, to which the McKinley Bill gave so notable a start, resulting in the establishment of prosperous factories at Lynn and elsewhere, has received a knock-down blow at the hands of Judge LACOMBE at New York.

Points on Pearl Buttons.

The Tariff greatly injured the manufacture of pearl buttons in Austria, and pearl "blanks" were sent to this country and pierced or shanked here. The importers claimed that their disks were subject to a duty of 40 per cent. ad valorem, whereas on the finished buttons the duty was 2½ cents a line and 25 per cent. ad valorem. The appraiser, however, decided that the duty on the "blanks" was the same as on the finished buttons.

Importers continued to bring over the "blanks," and to bore and shank them here, and entered a protest each time over paying the duty.

The cases were carried in the meanwhile to the United States Circuit Court by COMSTOCK & BROWN, attorneys for a combination at the head of which was the firm of STRAUSS, SACHS & CO., representatives of Austrian manufacturers. Judge LACOMBE decided that the blanks were subject to a duty of only 40 per cent. ad valorem. The Government appealed the case, and Judge LACOMBE's decision was sustained. The Court ruled that a piece of mother-of-pearl which had been made into a button with the sole exception of not having been supplied with holes or a shank was not a button within the sense of the Tariff.

PEOPLE OF ANCIENT YUCATAN.

Ample Evidence That They Were Warlike as Well as Skilled Architects.

Although the language and history of the ancient people of Yucatan have been lost to the world, they have left behind them monuments by which it is not difficult to determine the fact that in many respects they were of a wonderful as well as a warlike race previous to the discovery of the country in 1506. That they were warlike the early European adventurers found to their cost, but apart from that all along the low-lying coast of Yucatan and extending inland are found small watch-towers of stone, standing on terraced mounds, so arranged that tidings of forays of enemies could easily be conveyed from one to the other. In addition, mural paintings of warriors in battle-array have been innumerously found. The wonderful character of the people is amply demonstrated by the ruins of their cities. All of these are declared by the Philadelphia Ledger to display remarkable architectural ability. Massive in structure, intricate, rich and grotesque in carving, many of these buildings stand to-day almost in their entirety, though nearly or quite five hundred years have passed away since their erection. And all this rich carving and general stone cutting was done by chisels of nephrite and mallets of wood. On immense terraces the temples of the people stood, while macadamized roads, raised two or more feet above the general level and surfaced with hard, smooth cement, led from terrace to terrace and from one community to another.

An Extraordinary Legal Document.

One of the most remarkable legal papers on file in the archives of the world is now in the national museum of Paris, labeled: "Sentence on a hog, executed by justice, in the copyhold of Clairmont-Avin, and strangled upon a gibbet at that place." It is sealed with red wax, kept under a glass case, bears date June 14, 1404, and reads as follows:

* * * We, the jury, in detestation and horror of this crime, and in order to make an example, and to satisfy justice, have declared, judged, sentenced, pronounced and appointed that the said hog, now detained in the abbey as a prisoner, shall by the executioner be hung and strangled on a gibbet, near the gallows which is within the jurisdiction of the monks whose names are hereto appended, near the copyhold of Avin. In witness of which we have sealed this present with our seals." Following the above are the signatures of the jurors and the prefect of the department de l'Ainse.

Lowell Disliked Lecturing.

James Russell Lowell was a Harvard professor for twenty years, but he never liked lecturing. Prof. Norton says that he was always scrupulously attentive to his duties, but "the stated hours and seasons of work were irksome to him, and severe from his natural inclinations. 'I begrin,' he says, in a letter in 1867, 'I begrin my annual dissatisfaction of lecturing next Wednesday. I cannot get used to it.'

Advertising Started It, Merit Made It Popular.

Dr. T. P. Hubbell, who is engaged in the drug business at Wolcott, Vt., says: "Advertising started the sale on Chamberlain's Cough Remedy here, but it now sells on its merits, and all who use it speak highly of it." When troubled with a cough or cold, give it a trial and you will be more than pleased with the result. It is also a certain cure for croup in children. 50 cent bottles for sale by Power & Reynolds, Druggists.

LIBERTY BELL.

It Is Successfully Cast, Thursday, at Troy, N. Y.

Thirteen Thousand Pounds of Molten Metal Poured in the Mold.

Mrs. Cleveland, Owing to Poor Health, Did Not Touch the Button That Released the Metal—The Bell Will Be Taken to the World's Fair.

TROY, N. Y., June 23.—At 8:15 Thursday evening Miss Eugenia P. Meneely, daughter of Clinton H. Meneely, let loose a flood of metal at her father's foundry, which when cool, will be the Liberty Bell of this country. And the molten mass that flowed at her command was composed of patriotic material, implements of warfare, material of the most historic interest, swords that have been used in battle, metal identified with every progress, invention and science, remembrances and love-gifts.

The time for the casting was set at 4 o'clock in the afternoon, but owing to the damp atmosphere the furnace did not draw well, and it was 8:43 when the boiling metal bubbled over the top of the mold. It was originally intended that Mrs. Cleveland would touch a button at Gray Gables, whereby electrical apparatus at the foundry would be set in motion, releasing the metal from the furnace, but Mrs. Cleveland was in poor health and could not venture out in the storm and gale which prevailed at Buzzard's bay. The mold of the bell was not visible prior to the casting, but was imbedded in the earth just in front of the furnace.

When the committees arrived at the foundry all they could see was the great furnace filled with 13,000 pounds of molten metal, melted by the use of coal furnished free by the state of Pennsylvania. Then there was a small hole in the earth just in front of the furnace, and into this the molten metal, sparkling and looking like a snake of fire, found entrance, until, when the mold was full, the fiery mass began to spread out over the ground. Then the flow was stopped, and Mr. Meneely announced that the bell was cast. For ten hours it will have to stay in the earth, so as to allow it to cool off sufficiently to handle.

It will be polished, and will then be ready for transportation. The cost of the bell, delivered in Chicago, will be $3,500. It will be rung for the first time in that city. H. Walter Webb, third vice president of the Central Hudson railroad, has placed at the disposal of the committee in charge a special car for the transportation of the bell to Chicago. It is intended to have the car stop at various places.

It is proposed that the bell shall ring at each sunrise and sunset—at 9 o'clock in the morning on the anniversaries of days marking great events in the world's progress toward liberty; at 12 o'clock on the birthdays of the "Creators of Liberty," and at 4 o'clock it will toll on the anniversaries of their deaths.

The Behring Sea Case Begun.

PARIS, June 23.—Mr. Phelps began the case for the United States before the Behring sea commission. He said the real question before the tribunal was, "Shall the Canadians be allowed to defy America by destroying animals belonging to America?" The states did not wish to interfere with the liberty of the sealers, but there were limits to such liberty. Both England and the United States had agreed that it was desirable to put a stop to the slaughter of seals, and it was a desire to please Canada, and an agreement between Lord Salisbury and Mr. Bayard was not carried.

Ex-Supreme Justice Somerby Expelled.

INDIANAPOLIS, Ind., June 23.—It has just been learned in this city that ex-Supreme Justice Freeman D. Somerby, of the Order of the Iron Hall, has been expelled from the order by Branch No. 5, Detroit, Mich. The expulsion took place over six months ago, but for some reason the officers of the branch have kept it a profound secret. The branch had full power to expel, and Somerby now has no connection whatever with the Iron Hall.

A Royal Wedding.

THE HAGUE, June 23.—The hereditary grand duke of Luxembourg was married Thursday to the Princess Maria Anna, of Braganza, with great ceremony. Both the bride and groom are middled-aged persons and the prince is a well-known woman hater. He married only in order to obtain issue, as otherwise the grand duchy will be lost to the Nassau family and revert to Germany.

DESTRUCTION.

A Cyclone in a Kansas Town Does Fearful Damage.

Many Persons Killed and Injured and Houses Blown Down.

One Woman's Limbs Found in a Tree Top a Mile Away—Other Bodies Horribly Mangled—Not a House or Tree Left Standing in the Storm's Path.

PERRY, Kan., June 23.—The most destructive and death-dealing tornado that has visited eastern Kansas passed through Williamstown and the surrounding country in Jefferson county, Wednesday night. It traveled southeast and took in a scope of country half a mile wide and about six miles long. Not a house, barn or tree was left standing in its path. It was accompanied by a terrible rain storm and midnight darkness. Eleven dead bodies have so far been discovered and it is known that at least five more were killed.

The dead—L. F. Evans, Emery Evans, Mrs. John Hutchinson, Samuel Kincaide, Clara Kincaide, Sadie Kincaide, Walter Kincaide, Eva Kincaide, William Kincaide, Samuel Stewart.

Their bodies are all horribly mangled. Mrs. Hutchinson's arms and limbs were found in a tree a mile from the house. Eva Kincaide's head was severed from her body. Three persons are known to be fatally injured and many others are seriously hurt. Here is the list:

The fatally injured—James Baker, William Goepfert, Mrs. Goepfert.

Seriously injured—Rose Gray, Horace Gray, Arthur Jones, Walter McCracken. Complete details can not be obtained, but it is probable that at least twenty persons have been killed and thirty houses blown down.

DES MOINES, Ia., June 22.—A cyclone passed through Adair county, southwest of here, Wednesday night, and devastated a strip a quarter of a mile wide. A large number of farm houses were destroyed, but no fatalities are reported. A child was carried twenty rods through the air and escaped unhurt.

"Black" Rain at Moore's Hill.

MOORE'S HILL, Ind., June 23.—People's tongues are still wagging over a strange and startling phenomenon which nature worked in this part of Indiana a few days ago. Black rain fell for several minutes; not a few scattering drops, but in a steady downpour. The water stood in puddles along the sides of the roads, and the reflection of the sky which it cast off was a curious one. The fact which gives credence to this story is this: the wonder was seen in many places by many people, and the statements of these numerous witnesses go to substantiate the occurrence.

Four Believed Drowned.

CLEVELAND, O., June 23.—A mystery, behind which may be a tragedy, surrounds the finding of an overturned rowboat floating on the waves of Lake Erie, one mile from the foot of Waverly avenue. Sunday morning Newell Bros. rented a rowboat to four men—Hermann Cerenock, of No. 17 Purdy street; Wm. Oldridge, of No. 46 Purdy street, and John Wagner and Fred Heike, living on Ionia street. No tidings have been received of the men, and it is now believed they were drowned.

Sacramento Is Still Capital.

WOODLAND, Cal., June 23.—Superior Judge Grant has decided in favor of Sacramento and against San Jose in the state capital removal case. The constitutionality of the action of the recent legislature submitting an amendment to the constitution allowing a change of the capital was brought to be tested in the court and the act is declared void. The case will doubtless be appealed.

Black Pepsin Under the Ban.

COLUMBUS, O., June 23.—State Dairy and Food Commissioner McNeal has issued a circular denouncing black pepsin, which is sold to dairymen to be used in making butter, the claim being that it doubles the yield of butter. Dr. McNeal says the use of the article is improper and calls attention to the fact that it consists of salt, annato and rennet, a two-ounce package, which sells for $2.50 costing about three cents.

Phylloxera as a Suicide Promoter.

VIENNA, June 23.—Another epidemic of suicides has broken out in Buda Pest and other Hungarian towns. Seven cases of suicide were reported in Buda Pest Wednesday. Cases of insanity are increasing in number and the lunatic asylums are full. This is attributed to the drinking of poisonous concoctions substituted for wine, which has become scarce through the ravages of the phylloxera.

Another Bank Failure.

RIDGEWAY, Pa., June 23.—The Ridgeway bank, a private institution, Thursday morning decided that it was for the best interest of all creditors to close the doors. A gentleman who was in close consultation with the officials of the bank estimate the assets at $304,000 and the liabilities at $310,000.

Her Throat Cut.

CHAGRIN FALLS, O., June 23.—Mrs. Frank Rothmel, an Independence resident, was found with her throat cut and one cheek badly gashed. Frank is missing, and is suspected, having just got out of the Works, where he was sent for cutting her with intent to kill. She may recover.

Ohio Convicts Scratching.

COLUMBUS, O., June 23.—The inmates of the penitentiary are suffering from an epidemic of the itch, which has set a great many of them to scratching. The matter was reported to the state and city boards of health Thursday and the disease will promptly receive due attention.

THE METHODIST EXHIBIT

At the World's Fair to Remain, But Will Not Be Uncovered on the Sabbath Day.

CHICAGO, June 23.—The commission of clergymen and laymen who have control of the Methodist Episcopal church exhibit at the World's fair met in Bishop Merrill's office as of '87 Washington street, at 9 o'clock Thursday, to consider the proposition of removing the display from the exposition because the fair is opened Sunday. Bishop Merrell is chairman of the commission and president. The members of the body were appointed by the last general conference. Each branch of church work was represented by one commissioner, was as follows:

Church extension, A. J. Kinnett, Philadelphia; missionary branch, J. O. Peck, New York; Freedmen's aid, J. C. Hartsell; Louisville; board of education, C. H. Paine; Sunday-school union, J. L. Hurlbut, New York; Methodist Concern, Earl Cranston, Cincinnati. The commissioners at large are: J. T. Edwards, Randolph, New York; J. B. Hobbs, Charles Beabey, Rev. Frank Bristol, Chicago; John B. Lindgren, Evanston; Rev. Dr. C. E. Mandeville, Englewood; Solom Thatcher, River Forest; Clem Studebaker, South Bend, Ind. Bishop Merrill read a report expressing the views of the commission. He justifies the action of the commission in installing the exhibit at an open Sunday by declaring that the directory had given them to understand that the exposition would be open but six days in the week.

The following resolutions were adopted in connection with the address and express the views of the representatives of the church.

Resolved, That we deeply regret the action of the directory by which the gates of the World's fair have been opened on the Sabbath day.

Resolved, That this action taken after the action of the Methodist Episcopal church in entering the fair with its exhibits was a breach of faith that has involved us in extreme embarrassment, especially in view of the regulation that forbids the withdrawal of exhibits after subscribing to the acceptance of space.

Resolved, That in no case will we allow our exhibits to be uncovered on the Sabbath, and we call upon all members of our church who have exhibits to pursue the same course, and to do all that is possible to preserve the sanctity of the Lord's day.

By order of the commission.
(Signed)
C. E. MANDEVILLE, Sec'y.

FOREIGN IMMIGRATION.

Assistant Secretary of State Quincy Explains the Law to American Consuls.

WASHINGTON, June 23.—The statement from Dr. Senner, superintendent of immigration at New York, to all visitors from foreign ports, whether coming as cabin passengers or in the steerage would be subject to the restrictions and interrogations prescribed by the act of March 3, 1885, has caused much comment abroad, and in many European ports intending visitors to this city cancelled their engagements with the steamship lines. In view of these facts and fearful of the effect upon the foreign attendance at the World's fair, Assistant Secretary Quincy Thursday cabled the American consul general office in London, Berlin and Paris: the immigrant law of March 3, 1885, applies only to alien immigrants, those persons visiting the United States are not listed or interrogated, as prescribed by act. Inform public. (Signed) Quincy."

A CHANGE

In the Method of Medical Examination of Retiring Officers.

WASHINGTON, June 23.—Surgeon General Tryon, some days ago recommended a change in the method of medical examinations of officers for retirement. He proposed the change because it was found that medical officers serving on the regular promotion board also served on the retiring board. He did not consider this fair, as in case an officer was examined for promotion and failed physically he was then ordered to examination for retirement and the same medical officers were called upon to pass on his case. Dr. Tryon brought the matter to the attention of Secretary Herbert, who approved his plan and assigned medical directors P. S. Walls and G. S. Beardsley, now on duty in Washington, as the medical officers of the board. No change has been made in the promotion board.

WEEDING OUT.

The Civil Service List to Be Sifted—Executive Heads Agree Upon a Plan of Improvement.

WASHINGTON, June 23.—A general plan for the betterment of the departmental service of the government has been agreed upon by the several heads of the executive departments and when put into operation as the result of investigations now being made, is expected to produce results of a radical character.

Circular letters of instruction have been addressed to the chiefs of bureaus and divisions in every department of the governmental service at Washington. Each letter asks all clerks, male and female, to state their age, when appointed, whence appointed, present grade, past promotions, number of relatives in office, and such like questions, which, when answered, will give at a glance a satisfactory history of the clerk's official life.

When all these questions have been answered the appointment clerks of the several executive departments will form themselves into a kind of clearing-house board, compare notes, and make such recommendations as the facts in each particular case may seem to warrant.

These investigations are expected to disclose that numerous government employes are aliens; also that many families have from three to ten relatives in government service, and that many clerks and others now carried on the rolls are too old and decrepit to perform efficient work, and are represented by substitutes at greatly reduced pay. These facts, when established, will form the basis of a general re-organization all along the line, and by the "weeding out" process the government service is expected to be increased in efficiency fully ten or twelve per cent.

IN GREAT STYLE

Our First Ambassador is Presented to the Queen of England.

LONDON, June 23.—Thomas F. Bayard, American ambassador to England, proceeded Thursday from London to Windsor castle, where he presented his credentials from the United States to Great Britain. A state carriage was furnished by the British government to convey Mr. Bayard from his hotel to the railway station.

Upon his arrival at the station he was received by Gen. Sir Christopher Teasdale, master of the ceremonies. Mr. Bayard was conducted to a special saloon-carriage in waiting for him, in which he traveled to Windsor. A state carriage awaited his coming at the Windsor station, and Mr. Bayard, who was accompanied by his wife, entered it and was driven to the castle, where, after the usual formalities, he presented to her majesty the letters appointing him as the representative of the United States at the court of St. James.

Lord Roseberry, minister of foreign affairs, traveled on the train with Ambassador Bayard and introduced him to the queen.

Mrs. Bayard wore a costume of light gray, and after Mr. Bayard had presented his credentials she was presented to her majesty.

GAS EXPLOSION.

Disaster in the Shaft of the Susquehanna Coal Co.

Five Persons Instantly Killed and Four Badly Injured.

The Explosion Shook the Town of Nanticoke, Pa., Near by—All the Bodies Recovered Except One—The Injured [illegible] in a Bad Way—A Faithful Wife.

NANTICOKE, Pa., June 23.—Gas exploded in a shaft of the Susquehanna Coal Co., Thursday afternoon. Five men were instantly killed and three men and a boy badly injured.

The dead are Wm. Schultz, James Smith, John Smyth, Abraham Walker and Pat McKean.

The injured—Frank G. Wischel, badly burned about head and arms, fatally. John G. Went, burned about head and face. John Miles, burned about head and breast. Unknown man burned about head.

All the bodies have been recovered with the exception of Walker's. It is supposed to be buried under the debris.

The shaft where the explosion took place is known as No. 1 shaft and the cause of the accident is not known.

The force of the explosion shook the town and immediately a great crowd began to gather around the opening of the the shaft.

The wives of the men below raised their voices in lamentation, and the children added their treble cries to the din. Smith's body was brought up first. He was badly burned. The force of the explosion must have dashed him against the wall of the tunnel, for he was battered and blood was flowing from several wounds in his head.

All the injured are in a bad way. It is feared that they have inhaled flames. Walker's wife and little ones stood by while the work of bringing the men to the surface was going on, and as each one of the bodies or one of the injured men was brought up she pressed forward to get a view of the face. The mine boss tried to lead her away, but she firmly resisted. "I'm prepared to know the worst," said she, "if Abraham is dead I want to know it. She stood there, her face white and set with the little ones whimpering at her side. All the men were accounted for but the husband and father. The miners knew he was buried down there by the great mass that had been shaken loose by the explosion. Late Thursday night Mrs. Walker was still standing at the black opening waiting for the rescuing party to recover the remains of her husband.
